

Environmental Field Technician

ISOTEC is currently seeking a self-motivated, detail-oriented, quick learning Environmental Field Technician for our Lawrenceville, NJ office. ISOTEC is a growing environmental remediation firm specializing in the treatment of contaminated soil and groundwater. This position requires 50-60% travel throughout the US. An environmental background is preferred, but not required.

ISOTEC offers a competitive salary & benefits package including medical, dental, and vision health plans, paid holidays and vacation time with a salary increase after a successful probationary period. A company matched 401k plan is available after the first year. We also provide OSHA training with annual refresher trainings and a company paid annual physical which includes drug and alcohol screening.

Field Technician Duties and Responsibilities may include:

- Chemical and equipment preparation.
- Perform supervised chemical injection activities.
- Performing general labor and construction duties as required.
- Work on various job sites as assigned, working effectively both individually and within a team environment.
- Collect readings and samples, including groundwater and soil samples.
- Identify problems on work site and take steps to resolve them directly if applicable.
- Adhere to and promote all health and safety policies, including all safety protocols.
- Follow all Company Standard Operating Procedures for field work.
- Keep job sites neat, clean, and free of debris.
- Interface with customers periodically.
- Other duties as assigned.
- Willingness to travel to sites that require overnight stay for periods of 1-2 weeks at a time, or more, as needed to support field work at sites outside of our immediate vicinity.
- Local candidates preferred.

Requirements:

- High school diploma.
- Ability to lift a minimum of 50 pounds.
- Valid driver's license and a good driving record.
- General construction experience preferred, but not required.
- Willingness and flexibility to work on diverse project tasks on different job sites.
- Willingness to travel for project sites across the country via air travel.
